

Identity Federation

Why Identity Federation?

- Consumers: To access applications with minimum effort
- Enterprises:
 - ⦿ To adopt new business demands, fast
 - ⦿ To adhere to complex corporate requirements,
 - ⦿ Password policies
 - ⦿ Strong authentication
 - ⦿ Login policies
 - ⦿ Regulatory compliance

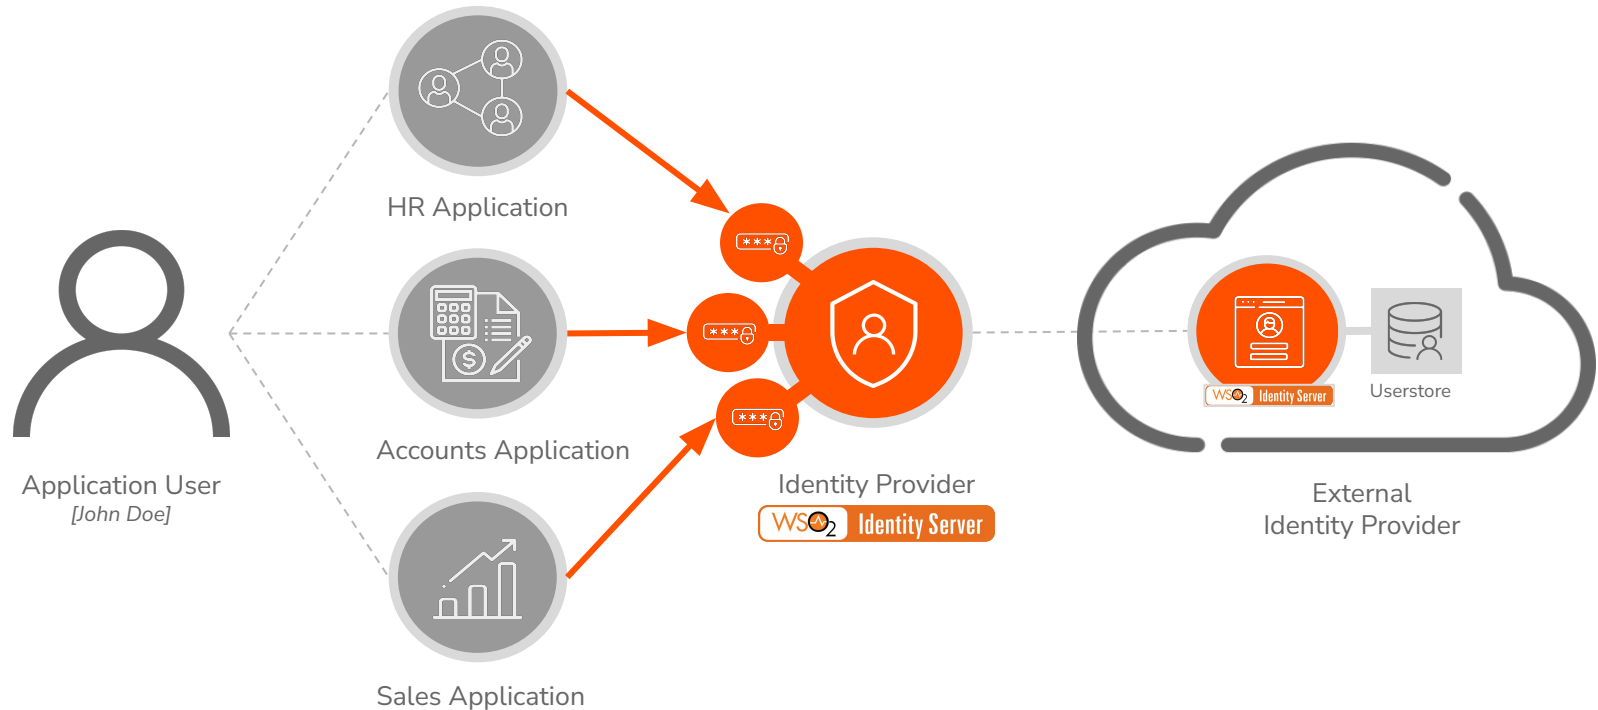

What is Identity Federation?

Connecting a person's digital identity and attributes stored across multiple distinct trust domains.

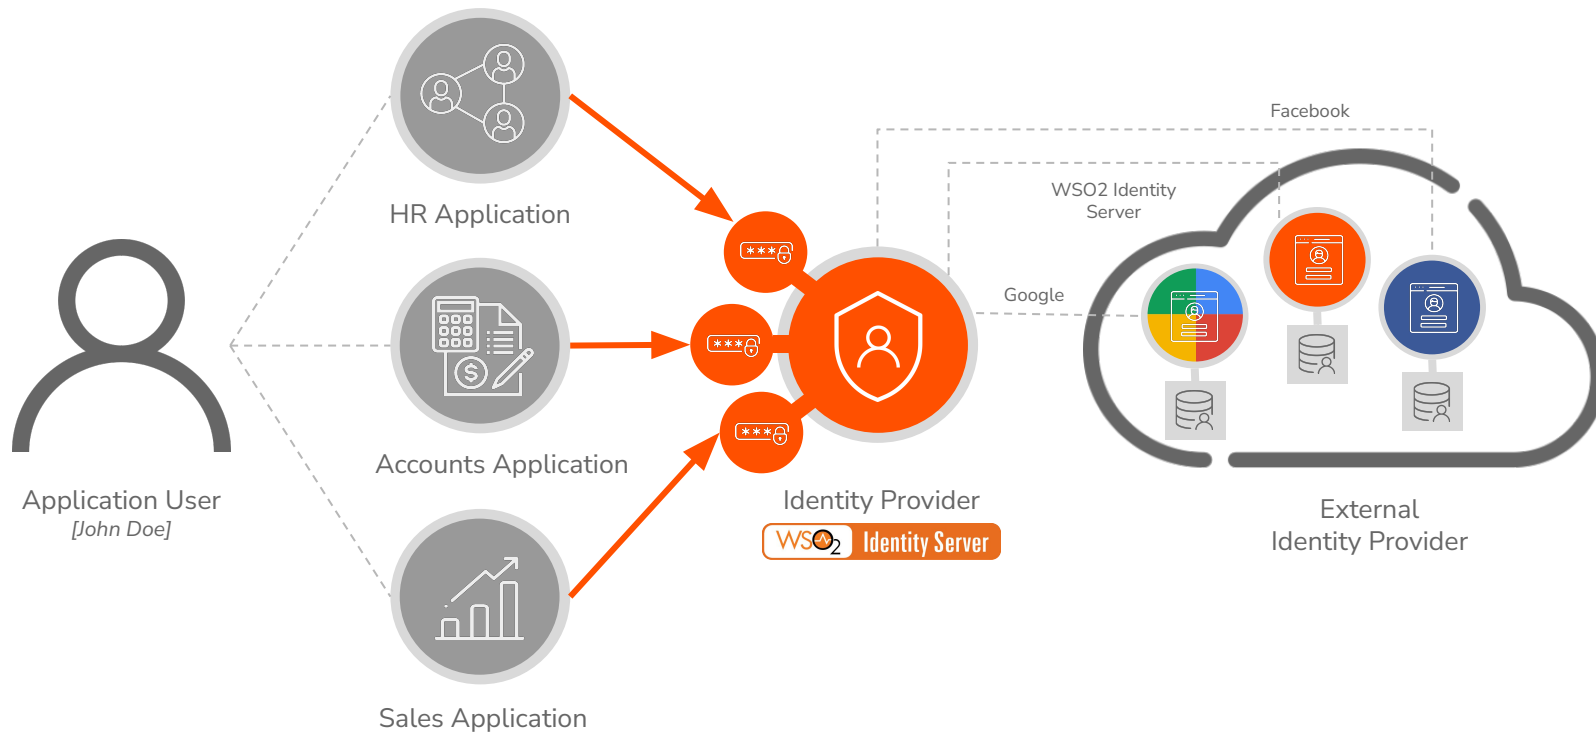

Application Ecosystem

Authenticating users existing in an external identity provider

Identity Federation with Social Login

Authenticating users using a social service provider as an external IdP

Benefits of Using Identity Federation

- **Security**
 - ⦿ Open standards
 - ⦿ Single sign-on
 - ⦿ Multi-factor authentication
- **Cost**
 - ⦿ Standardized access control policies
 - ⦿ Minimize time and effort for regulatory compliance and to adopt latest security trends
